

Directions to Sound Recording Technology

Our Studios are located on the Industrial Estate in St Ives, Cambridgeshire, 15 miles North West of the City of Cambridge.

From the South

Take the M11 to Cambridge, but do not turn off to the city - remain on the M11. Shortly after passing Cambridge, the road turns into the A14 (formerly the A604). Remain on the same road and follow signs to Huntingdon and The Midlands. Do not turn off to Newmarket.

From the North

The A14 provides a link from all major trunk routes from the North and Midlands (M1, M6 and A1). When reaching the outskirts of Huntingdon, take the A14 (formerly the A604) to Cambridge and London.

In St Ives

After leaving the A14 at the St Ives exit (Junction 26, B1096), follow the ring road to St Ives.

On entering St Ives you will hit a series of roundabouts. At the first two go straight on. At the third follow the all routes sign, at the fourth take the first exit on the left, and the fifth roundabout take the right (There is a large "BP" petrol station on the corner onto the Somersham Road North). This road will take you around the perimeter of the industrial estate.

Take the third road on the left after passing a Citroen dealer. This road is Nuffield Road (there is Gibbs and Dandy on the corner) and this takes you onto the estate. SRT is situated on Edison Road which is the first right.

The building is on the right hand side (big red unit). Please use the door labelled Audio House.

By Train

SRT is situated close to Huntingdon Station, on the main Eastern Line. Trains run from Kings Cross (from the South), Leeds and Edinburgh (from the North). We are happy to arrange for you to be collected from Huntingdon by Taxi. Please arrange prior to your journey.
